MEMORANDUM FOR: Director of Training

SUBJECT : Weekly Activities Report
31 May - 4 June 1971

GENERAL

1. The Director addressed the COS Seminar, which ended on 28 May, on its final day and made two principal points: (1) Visiting journalists and visiting Congressmen both deserve thoughtful and careful attention. Not only can they be implacable and vocal enemies if handled carelessly, but can and do enhance the Agency's image if handled well. (2) The collection of intelligence in support of the [redacted] mission abroad is one 25X1A6a to take seriously. This is a serious U.S. problem and one on which the field stations can make a contribution.
